# ENEMY PROPAGANDA

Live news bulletins of the war with the ISA are being broadcast across the galaxy.

"A new era has dawned here on Helghan. Our glorious Emperor Visari is dead, executed by the merciless ISA invasion force. But they can never break our spirit. Two men – Admiral Orlock and Jorhan Stahl – have stepped forward to lead our people to a glorious victory."

"We are beaming this broadcast so the entire galaxy can witness how the people of Helghan respond to persecution. The ISA will fall and the true power and resilience of the Helghast shall be recognised by all."

"Admiral Orlock is in charge of our navy. He is a strategic genius, a Helghast purist who serves our people with honour. He will not rest until the pitiful remnants of the ISA invasion force have been crushed into the ground."

"Jorhan Stahl is the head of the Stahl Arms Company, the largest weapons research and manufacturing group on Helghan. Our brave warriors have been using his equipment to repel the invaders. Any rumours of dispute between Stahl and Orlock are unfounded and should be dismissed."

"The Interplanetary Strategic Alliance call themselves 'peace-keepers' but there is nothing peaceful about their invasion. Our defence forces have brought the ISA to their knees and their army has no hope of leaving Helghan alive."

"Tomas 'Sev' Sevchenko is responsible for the deaths of many brave Helghast soldiers and must be captured. Sevchenko, if you are listening, our forces are closing in, there is nowhere left to run. You will never see your beloved Vekta again."

"Rico Velasquez murdered Visari with a point-blank bullet. No amount of suffering could serve as recompense for the cold blooded killing of our great leader, but once captured, it is our duty to ensure that Velasquez dies an agonising death."

"Our people will never give up. We will defeat the ISA. These killers will not leave this planet alive. We are stronger and more resilient than any humans. The invaders will suffer. Helghan will never fall – this will be our finest hour."

## SOS MESSAGE FROM ISA FORCES

"anybody hear me...this...keeps cutting out...we're trapped...so many dead...I don't know if we can hold out much...there are Higs everywhere...they came out of nowhere...we're outnumbered and...they've upgraded their weapons...and they're shooting at us from above...we've no choice but to face them...fight them till the end...figure out how they fight...turn their own weapons against them...know the enemy...what chance do we...hear me...help us..."

## SETTING UP

Set up the PlayStation®3 system according to the instructions in its instruction manual. At start-up, the power indicator light will glow red to indicate that the PlayStation®3 system is in Standby Mode. Press the power button and the power indicator light will turn green.

NOTE: the information in this manual was correct at the time of going to print, but some minor changes may have been made late in the product's development. All screenshots for this manual have been taken from the English version of this product.

## USING A PlayStation®Move MOTION CONTROLLER

A PlayStation®Move motion controller can be used to play Killzone®3. For information on setting up and using a motion controller and safety precautions, please refer to the instruction manual supplied with the peripheral or visit [eu.playstation.com/help-support/manuals](http://eu.playstation.com/help-support/manuals).

Attach the supplied strap to the motion controller and always wear the strap on your wrist during play to help prevent losing your grip on the motion controller.

NOTE: Killzone®3 supports the PlayStation®Move sharp shooter - the ultimate peripheral that combines your motion controller and PlayStation®Move navigation controller together in one streamlined, feature packed design. Killzone®3 does not support the original PlayStation®Move shooting attachment.

## USING A PlayStation®Eye CAMERA

A PlayStation®Eye camera is required to play Killzone®3 when using a motion controller. Set the camera to wide angle view (the blue setting) and place the camera on top of or immediately below the television. The recommended distance between the camera and the motion controller is approximately one to three metres.

NOTE: refer to the PlayStation®Eye camera instruction manual for further details on setting up the camera and refer to the PlayStation®Move motion controller instruction manual for additional details on using the camera and motion controller together.

## IN-GAME CALIBRATION

Follow the on-screen instructions to calibrate the motion controller and PlayStation®Eye camera before commencing play. It is important that the motion controller is held steadily during the calibration process.

## USING A PlayStation®Move NAVIGATION CONTROLLER

The PlayStation®Move navigation controller is an optional additional peripheral that is held in the opposite hand to the motion controller. In Killzone®3, the navigation controller is primarily used to guide and steer your character around the environment.

A wireless controller can also be used for this purpose. For information on setting up and using a navigation controller, refer to the instruction manual supplied with the peripheral.

## USING A HEADSET

For online play, Killzone®3 is compatible with USB and Bluetooth® headsets, allowing squads to operate with a greater emphasis on tactics.

Insert a USB headset into any of the USB connectors located on the front of the PlayStation®3 system. To use a Bluetooth® headset, the headset must first be paired with the PlayStation®3 system. Consult the headset's manual to find out how to enable "syncing", "pairing" or "registering" mode.

To set the input/output device for chat and other communication features, select Audio Device Settings from the Accessory Settings Menu in the PlayStation®3 system's XMB™ Menu.

## PLAYING THE GAME IN 3D

This game is playable in 2D or 3D. To enjoy stereoscopic 3D features, you will require a 3D TV that supports 3D stereoscopic display and 3D compatible glasses.

3D mode capability should be detected on start-up. Access the Set Up 3D TV option from the Options Menu to turn 3D on or off, or to adjust the level of stereoscopic 3D displayed. Once a game is in progress 3D mode can not be activated or deactivated.

NOTE: if the Set Up 3D TV option is displayed in grey it is disabled and your PlayStation®3 system has not detected your 3D TV. Follow these steps to enable 3D mode:

- Ensure that you have the latest system software installed on your PlayStation®3 system. Further details on system software updates can be found in the PlayStation®3 instruction manual.
- Restart your PlayStation®3 system. On start-up your PlayStation®3 system should automatically detect your 3D TV and guide you through a brief set-up process.
- If 3D mode is not detected, you can activate the set-up process manually via the XMB™ Menu: choose Settings, then select Display Settings, followed by Video Output Settings, then select HDMI and follow the Automatic set-up process.

### GUERRILLA WARFARE

The objective is simple: Kill the enemy. The faction that takes out a determined number of enemy troops, or the most enemy troops before the time runs out is the winner.

### WARZONE

Warzone features missions that change every time you play. The missions are:

**Assassination** – As the attackers you must kill the target enemy before the time runs out. As the defenders you must protect the assassination target.

**Search and Destroy** – The attacking faction must plant two explosive charges within the set time to make the enemy object explode. The defending faction has to protect the object from being blown up.

**Search and Retrieve** – Pick up and return more propaganda speakers than the enemy within the given time, or return three propaganda speakers before the enemy does.

**Capture and Hold** – Capture, secure and hold specific areas and defend them for longer than the enemy in the given time.

**Bodycount** – Take out more enemies than the opposition in the set time.

## OPERATIONS

The ISA and Helghast battle for control of specific objectives in three missions:

**Search and Destroy** – The ISA have to plant explosive charges to make progress, the Helghast have to stop them. Once planted, the explosive charges cannot be defused.

**Capture and Hold** – By capturing and holding certain locations, the ISA earn points. If they earn enough points in the given time they will win the mission. To stop the ISA gaining points, the Helghast can capture and hold the areas.

**Scavenge and Retrieve** – The ISA must secure a specific area, find a battery and take it to the return point. To stop them, the Helghast must capture and hold a battery location or kill the ISA battery carrier.

Note: after an online multiplayer game, a post-match results screen is displayed. This screen shows various information including stats, score, ribbons gained and current rank.

## CAREER SELECTION

For each career a series of additional skills and weapons can be unlocked as you excel on the battlefield. Each career path has three levels of primary and secondary skills to unlock, and three primary and secondary weapon types. Can you make it to the top of your chosen vocation?

### INFILTRATOR

Can earn the ability to plant and defuse explosives quicker than anyone else.

**Primary ability:** Disguise

Infiltrators can disguise themselves as a member of the opposing faction.

**Secondary ability:** Survivalist

Increases sprint speed and stamina.

### TACTICIAN

Brings order from chaos and turns a hostile battlefield into a controlled war zone.

**Primary ability:** Tactics

The Tactician can capture spawn areas – where players enter the battlefield and regenerate – thus allowing all faction members to spawn there.

**Secondary ability:** Recon

Temporarily marks enemy positions on the mini-map.

### FIELD MEDIC

Depending on their skill level, Field Medics can restore different amounts of health to wounded soldiers and can provide ammunition and explosives. They can also earn the ability to survive injuries that would prove fatal to others and can call on a Medi Droid to provide protective covering fire.

#### Primary ability: Revive

Field Medics are able to heal wounded players and provide ammo.

#### Secondary ability: Triage

Field Medics can regenerate their own health and the health of nearby allies.

### ENGINEER

#### Secondary ability: Scramble

The Marksman and any allies within 15 metres will not show up on the enemy's radar, even while firing weapons.
